---

Summary

Accomplished technical professional with **13 years of experience** in software development, AI technologies, and engineering leadership. Specialized in driving innovation through **LLMs, RAG techniques**, and **multi-cloud architectures**. Adept at building and managing teams, designing AI-powered systems, and delivering large-scale projects in healthcare, telecom, and banking domains.

Core Competencies

- **Engineering Management:** Proven expertise in team building, Agile leadership, and cross-functional collaboration to achieve impactful business outcomes.
- **AI Solutions Expertise:** Skilled in developing AI-driven architectures using **Azure OpenAI**, **LangChain**, and **Hugging Face** frameworks.
- **Cloud Integration:** Hands-on experience in **Azure**, **AWS**, **GCP**, and hybrid cloud solutions.
- **AI/ML Application Development:** Proficient in implementing AI/ML frameworks in imaging, diagnostics, and intelligent systems.
- **Programming:** Deep knowledge of **Python**, **Docker**, **Kubernetes**, and CI/CD pipelines.

Professional Experience

Tata Consultancy Services
AI Platform Architect *(March 2023 – Present)*

- Led the design and development of healthcare solutions using **Azure OpenAI** and cloud integration to enhance diagnostic accuracy.
- Architected and implemented **RAG-based AI solutions** for real-time healthcare decision-making, leveraging **Azure ML**.
- Spearheaded migration projects from on-prem to **Azure Datacenters**, ensuring robust security and compliance.
- Mentored teams in AI technologies such as **LLMs**, **LangChain**, and **Hugging Face** frameworks to foster innovation.
- **Awards & Recognition:** Delivered ground-breaking automation strategies recognized for excellence in healthcare AI.

Cloud Architect *(January 2022 – March 2023)*

- Designed multi-cloud strategies for **GE Healthcare**, implementing AI-enhanced imaging solutions and **FHIR/HL7 APIs** for healthcare integration.

- Developed security and networking infrastructure for cloud migrations, empowering seamless operations.
- **AI Skills:** Applied **machine learning** algorithms in healthcare imaging systems, integrating next-gen diagnostic tools.

Capgemini Engineering

Technical Lead *(October 2019 – January 2022)*

- Directed AI projects for telecom clients, focusing on network orchestration and IoT device analytics.
- Led initiatives in incorporating Azure and cloud features in telecom solutions, enhancing security and 5G advancements.
- Integrated performance based monitoring and predictive analytics across IoT systems.
- Managed diverse teams of engineers, fostering collaboration and continuous improvement.
- **Awards:** Recognized for leadership excellence in delivering AI-driven telecom innovations.

Siemens Healthineers

Senior Software Engineer *(July 2017 – October 2019)*

- Transitioned monolithic healthcare systems into **microservices architecture** using AI-enabled pipelines.
- Implemented **AI/ML technologies** to optimize diagnostic imaging systems.
- Designed DevOps workflows for Healthcare frameworks, including **Docker** and **Kubernetes**, to streamline operations.

Synechron

Senior Associate *(May 2016 – July 2017)*

- Developed CI/CD integrations for **Morgan Stanley**, automating deployment pipelines across business units.

- Collaborated on overall systems to improve analytics and business intelligence insights.

Raw Engineering

Application Engineer *(May 2015 – May 2016)*

- Built web applications integrated with **cloud-based technologies** for seamless operations.
- Incorporated IOT based tracking tools for data tracking and predictive analytics in business applications.

Tresbu Technologies Pvt. Ltd.

Associate Software Developer *(August 2012 – April 2015)*

- Designed IoT solutions with real-time geolocation tracking and enhanced analytics for device monitoring.

- Developed video conferencing features using **cloud based WebRTC** tools, enabling dynamic user interactions.

Education

Bachelor's Degree in Electronics and Communication Engineering
Visvesvaraya Technological University (2008–2012)

Awards & Certifications

- 50k Service Milestone - Cisco
- OpenHack Participation - Microsoft
- Web App Security Testing Achievement
- Top 300 Shortlisted Ideas Across India - AI Innovations

Publications

- **WebRTC:** Research and technical insights on real-time communication and AI integration.
